

# ★ COME AND DRINK IT VODKA

Come and Drink It Vodka is as fresh and clean as an artesian spring flowing from the rocks of the Hill Country. We are pleased to share with you our smooth vodka to help you through the hot Texas summers.

Come and Drink It is mashed, fermented, and column distilled just above alcohol's boiling point to create a soft, smooth vodka. We further run it through a polishing filter six times to remove any impurities that creates a vodka for the most discerning palate.

Cheers to our friends.
